Relevant Employment Experience

Site SHE Advisor

Duties include: Legislative Advice and Updates – Implement SHE Management Systems - Site Audits and Action Plans - Risk Assessments & Method Statements – Monitoring / Inspections – Manage (PTW) Systems - Safety Induction - Environmental Management - On Site Practical Advice - Management Reports -

Staff Training - Scaffold Instruction / Assessments - Scaffold Inspections / report writing on findings. Presentation and training of scaffolders on SG4:05 “preventing falls from height in scaffolding and false-work”

Training of Site Management in Scaffold Awareness and inspection procedures.

Training of delegates on PASMA alloy tower training.

Scaffold training has recently been upgraded to take into account the new “Work at Height Regulations 2005”.The most challenging item at present is to try to change established attitudes especially amongst older members of the work force. However I firmly believe behavioural change education to be the way forward in improving site safety.
